

Contactor Cross-Reference — Siemens SIRIUS 3RT, Schneider TeSys LC1D, ABB AF, Eaton DILM by AC-3 Rating and Coil Voltage

cBallast Technical Sourcing · generated 2026-09-29 · cballast.com/documents/contactor-cross-reference-siemens-3rt-schneider-lc1d-abb-af-eaton-dilm-by-ac3-rating-coil · first 369 rows; the full table is online

Three-pole power contactors are matched by their AC-3 rating (motor load at 400 V, expressed in A or kW), the coil voltage and type (AC or DC, or wide-range electronic coil), and the auxiliary contact configuration. The catalogue rows below are grouped by AC-3 current and coil voltage so a Siemens SIRIUS 3RT20, Schneider TeSys D LC1D, ABB AF or Eaton DILM contactor of the same rating can be found for a quotation. Utilisation category AC-3 (squirrel-cage motors, breaking at running current) is the standard comparison basis; AC-1 (resistive) ratings are higher for the same device.

AC-3 rating · coil	Siemens	Schneider Electric	ABB	Eaton
