

Hydraulic Seal Size Finder — Rod Seals, Buffer Seals, Piston Seals, Wipers and Guide Rings by Rod / Bore and Groove Dimensions (SKF)

cBallast Technical Sourcing · generated 2026-09-29 · cballast.com/documents/hydraulic-seal-size-finder-rod-seals-piston-seals-wipers-guide-rings-by-rod-bore-groove-dimensions-skf · first 500 rows; the full table is online

Cylinder seals are ordered by the groove they fit: rod diameter (or cylinder bore for piston seals), groove diameter and groove width, plus profile and material. SKF metric designations state these directly (PTB-20X35X11 = 20 mm rod, 35 mm groove diameter, 11 mm width) and inch designations in thousandths (DZ125-1250-250 = 1.25 in rod); the material code follows (E2F/E2E polyurethane and NBR, J1S PTFE). Profiles: rod seals and buffer seals (DZ, DZR, PTB, RSK, S1S), piston seals (PSD, DPS, DAS, KDS), wiper seals (WAT, WGT, SAS), guide rings and bearing strips (RGR, WR, PGR). The finder lists the catalogue by profile and rod or bore diameter.

Section	Rod / bore Ø	Groove Ø	Groove width	Design	Part number	Brand
