

Radial Shaft Seal Size Finder — Shaft × Housing × Width (SKF HMS5, HMSA10, CRW1, CRWA1, HDS)

cBallast Technical Sourcing · generated 2026-09-29 · cballast.com/documents/radial-shaft-seal-size-finder-shaft-housing-width-skf-hms5-hmsa10-crw · first 500 rows; the full table is online

Radial shaft seals (rotary lip seals) are specified by shaft diameter d1 × housing bore d2 × width b and by design: HMS5 (single lip, rubber outside diameter), HMSA10 (with auxiliary dust lip), CRW1/CRWA1 (metal case, inch and metric), HDS (large diameter, split or solid), and by lip material — NBR (R) for mineral oils to 100 °C, FKM (V) for higher temperature and aggressive media. The finder groups the catalogue by shaft diameter so the correct size can be read off directly.

Section	Shaft d1	d1 × d2 × b (mm)	Design	Part number	Brand
shaft "d 19 mm	5 mm	5 × 15 × 6	std	FD34258	C.C.Jensen
