

Socket Head Cap Screw Finder — ISO 4762 / DIN 912 by Size, Length and Grade (8.8, 10.9, 12.9, A2, A4)

cBallast Technical Sourcing · generated 2026-09-29 · cballast.com/documents/socket-head-cap-screw-finder-iso-4762-din-912-by-size-length-grade-stainless · first 400 rows; the full table is online

Socket head cap screws to ISO 4762 / DIN 912 are the standard machine-building fastener: cylindrical head of diameter 1.5 d, hexagon socket, thread length 2d + 6 mm on longer screws. Property class 12.9 (black, oiled) is the default for machine tools and jigs, 8.8 and 10.9 where the joint is designed for lower preload or where zinc plating is required, stainless A2-70 and A4-70 for food, water and marine equipment. Head and socket dimensions are identical between ISO 4762 and DIN 912; only the older DIN sizes M10 and M12 differ marginally in head height tolerance. The finder groups the catalogue by thread diameter and length with one column per material.

Thread × length	Steel 8.8	Steel 10.9	Steel 12.9	Stainless A2	Stainless A4	Other
