RoHS Regulation

Dear,

we refer to your request from today regarding the RoHS-Regulation:
EU Directive 2011/65/EU and 2015/863/EU
Restriction of Hazardous Substances in electrical and electronic equipment

RoHS refers only to the goods (turned parts) supplied by us made of stainless steel.

We hereby inform you that we are basically **not affected** by the RoHS.

Businesses are affected which

- manufacture and sell electrical and electronic equipment of the established categories.
- sell devices that are manufactured by other manufacturers under their own brand
- introduce affected devices in the Member States of the European Union (EU) or export them

We keep a close contact with our suppliers to ensure that the substances listed in the RoHS
Lead, cadmium, chromium VI, mercury and polybrominated biphenyls and diphenyl ethers, bis (2-ethylhexyl) phthalate (DEHP), benzyl butyl phthalate (BBP), dibutyl phthalate (DBP), diisobutyl phthalate (DIBP)
are not used in our stainless steel materials.

We thank you for your kind attention.

Kind regards,

i. A. Sven Windhövel
