

Declaration of Compliance

Identification of Supplier:

Company name	Ahlsell Danmark A/S
Address	Jydekrogen 2A, DK – 2625 Vallensbæk Denmark
E-mail	produktsikkerhed@ahlsell.dk
Website	www.ahlsell.dk
Is registered at The Danish Veterinary and Food Administration: http://www.findsmiley.dk/da-DK/Searching/DetailsView.htm?virk=10957106	

Conformity:

Ahlsell DK hereby declare that the products complies with the European regulations:	
(EC) No 1935/2004:	Materials and articles intended to come into contact with food.
(EU) No 10/2011:	Plastic materials and articles intended to come into contact with food.
(EC) No 2023/2006:	Good manufacturing practice for materials and articles intended to come into contact with food.
(DK) 681/2020:	Regulation 681/2020 for materials and articles intended to come into contact with food.

Products covered by this DoC:

Danish:	Drikkevandsslange pure blå 24,8mm 25m
English:	Fitt Pure hose
Please refer to the supplier DoC (next page) for area of application and technical information.

DECLARATION OF COMPLIANCE FOR MATERIALS AND ARTICLES INTENDED TO COME INTO CONTACT WITH FOOD (FCM)

1. We hereby certify that the supplied hose **FITT PURE** produced by:

Fitt S.p.A. Via Piave, 8 36066 Sandrigo, VI (Italy) Tel. +39 0444 46 10 00 Fax +39 0444 46 10 99
--

complies

with all relevant regulations, and particularly with the following:

- **Regulation 1935/2004/EC,**
- **Regulation EC 2023/2006 (GMP),**
- **Regulation (EU) 10/2011** and following revisions and amendments,
- **Regulation (EU) 2020/1245,**

and with the following Italian Regulations:

- **D.M. 21/03/1973** and following revisions and amendments,
- **DPR 777/82** and following revisions and amendments.

2. The above-mentioned product is manufactured with the following materials suitable for food contact:

- Inner layer made of thermoplastic elastomer (contact side).
- Reinforcement in polyester thread.
- Outer layers made of thermoplastic elastomer.

3. To the best of our knowledge, we can confirm that no Dual Use Additives are contained in the product and that the product doesn't contain "Non-Intentionally Added Substances" (NIAS).

4. We certify that:

- The article meets the overall migration limits and specific migration limits under the following test conditions:
 - Simulant A: AQUEOUS SOLUTION OF ETHANOL at 10% v/v (for aqueous foodstuffs).
Testing time and temperature: 10 days at 40°C.
 - Simulant B: AQUEOUS SOLUTION OF ACETIC ACID at 3% p/v (for acid foodstuffs).
Testing time and temperature: 10 days at 40°C.
 - Simulant C: AQUEOUS SOLUTION OF ETHANOL at 20% v/v (for alcoholic foodstuffs).
Testing time and temperature: 10 days at 40°C.
 - Simulant D1: AQUEOUS SOLUTION OF ETHANOL at 50% v/v (for alcoholic foods with an alcohol content from 20% to 50 % and for oil in water emulsions and milk).
Testing time and temperature: 10 days at 40°C.

The product complies with the overall migration limits and other specific restrictions under which the monomers and/or additives contained in the material can be submitted, at the abovementioned usage conditions. All declared is supported by analytical tests carried out in compliance with the DM 21/03/1973 and articles 17 and 18 of Regulation (EU) 10/2011 in conjunction with Annex V or based on calculations made taking into account the % of the substances submitted to migration limits in the test conditions. Calculations presume that 1 kg of food enters into contact with 6 dm² of product. We remind that the Migration Limit is 60 mg/Kg food [ppm], also expressed as 10 mg/dm² (if the certificate reports mg/kg it is possible to convert it into mg/dm² dividing the value by 6) and we underline that the change in the analytical tolerance is between 10 and 20% (12 mg/kg or 2 mg/dm²).

5. We suggest giving notice to the writing Society if the usage conditions of the product do not correspond to the advice here supplied or whether the foodstuff which come into contact with the product (Food Contact Material) is different from the applicable conditions and from the simulants listed above.

6. The user of the product which is intended to come into contact with food has the responsibility of informing the writing Company about any restriction due to particular component characteristics (additives and aromas) of the foodstuff which has to be transported.
7. Industrial or commercial usage of the product concerned in this declaration is subject to the evaluation of its compliance to actual regulations and to the technological suitability to the declared final usage.
8. This declaration is valid as from the date indicated below and will be renewed when substantial changes in the processing (final product/raw material) will bring about modifications in some necessary requirements or when new amendments to the regulations mentioned at point 1) will require new controls to verify the compliance.
9. Moreover, we inform that all necessary support documents are at the disposal of the control authorities, in accordance with art. 16, par. 1 of Regulation 1935/2004/EC.

Date: 17 / 12 / 2024
