

Declaration of Compliance - REACH REGULATION (EC) No 1907/2006**1. REACH Article 33(1) - Communication on Substances of Very High Concern**

Under REACH (EC No. 1907/2006), the EU chemicals regulation, Article 33 requires suppliers of articles to inform recipients if a Substance of Very High Concern (SVHC) is present above 0.1% weight by weight. This obligation applies at the article level*, including for complex products made of multiple components. SVHCs are listed on the Candidate List published and regularly updated by the European Chemicals Agency (ECHA). <http://echa.europa.eu/candidate-list-table>

2.**Regulatory/Declarable Substance List (DSL) version***January 21, 2025***3. Scope of declaration**

This declaration applies to all Products sold or otherwise placed on the market by **Refrigera industriale Srl**. This declaration remains valid unless material changes to the product(s) occur, of which customers will be notified, or until declaration is updated in response to changes in applicable regulation(s) and materials.

4. Compliance Status (declaration)

Product(s)	DOES contain	Substance Name/Group	CAS/EC Number	Concentration (%)	Article* in which substance is found and Safe Use Information (if applicable)
BV, SV, CV, SR, Y3, Y4	y	Lead (metal)	7439-92-1	1,6 – 2,2 %	In brass components. No special measures required under normal conditions of use.

Table 1: Products that do contain a REACH SVHC above 0.1% w/w at the article level

*An *article* is defined as an object which during production is given a special shape, surface or design that determines its function to a greater degree than its chemical composition. Following a 2015 ruling by the European Court of Justice (C-106/14), this requirement applies to each individual component of a complex product—commonly referred to as the “*once an article, always an article*” principle. Once an article has an established duty to declare, this duty remains for whichever more complex article / product this article is used in, even if the article was originally manufactured outside of the EU.
