REACH Regulation / Updated 25.06.2025

Dear,

we refer to your request to Regulation (EC) No. 1907/2006 (called "REACH"), the EU chemicals legislation.

REACH is the shortcut for

• **Registration** • **Evaluation** • **Authorization** • Restriction of **Chemicals**

The products / articles manufactured by us consist of a large number of individual substances, as well as mixtures of substances, which we obtain from our suppliers (e.g. stainless steel 1.4571). According to the requirements of the REACH regulation, we are a so-called downstream user and are not subject to any registration obligations. We follow the candidate list established by ECHA (SVHC Annex XIV and XVII) and act according to Art. 33 of the REACH Regulation.

We hereby inform you that the products supplied by us, do not contain substances of very high concern (SVHC) on the candidate list (www.echa.europa.eu/candidate-list-table) that exceed 0.1% in accordance with Article 33 of the REACH Regulation (EC) No 1907/2006).

Our pre-suppliers are also obliged to inform us if the products they supply contain an SVHC substance above 0.1%. If we receive information from our suppliers and learn that our products exceed the 0.1 mass percentage threshold for an SVHC substance, we will inform you.

We thank you for your kind attention.

Kind regards,

**PH Industrie-Hydraulik
GmbH & Co. KG**
