

## Supplier assurance

Fristads AB is a member of the RISE Chemicals Group and is therefore kept up to date on current and future chemical legislation. Fristads AB uses the Chemicals Group's chemical guide as a product-specific Restricted Substances List (RSL). The chemical guide is a tool that places relevant requirements on suppliers to avoid the presence of unwanted chemicals in products. Products and material categories included in the guide are textiles, leather, accessories and packaging materials.

## Compliance with REACH Regulation (EC No. 1907/2006)

Fristads AB hereby confirms that our products are compliant with the REACH Regulation (EC No. 1907/2006). Fristads AB hereby confirms that we follow ECHA's list on Substances of Very High Concern.

*This supplier's assurance is based on current facts and information from Fristads AB's subcontractors as well as current legislation. Even if hazardous substances are not intentionally added in the production process, traces of contamination cannot be completely excluded.*
