Pajo Bolte A/S RoHS and REACH Compliance Statement

Pajo Bolte A/S, part of Bufab Group AB, is an importer and distributor of standard fasteners and special items of mainly steel, stainless steel. In accordance to the Bufab Group Environmental policy, Pajo Bolte is promoting environmental responsibility by encouraging our suppliers, contractors and customers to adopt international environmental principles.

Compliance requirements

Pajo Bolte A/S is committed to ensure that our products are in compliance with Directive 2011/65/EU and EU Directive 2015/863 of the European Parliament on the Restriction of the use of certain Hazardous Substances in electrical and electronic equipment (RoHS Directive).

Pajo Bolte A/S is committed to fulfil all duties under the European Union regulation no. 1907/2006 on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) regarding the disclosure of Substances of Very High Concern (SVHC). Pajo Bolte is required to pass on the information to our customers regarding all substances on the Candidate List above 0.1% in the identified products.

REACH SVHC candidate list: <http://echa.europa.eu/candidate-list-table>

Pajo Bolte compliance fulfilment

Pajo Bolte's ambition is to only provide RoHS and REACH compliant products and we are continuously working on replacing non-compliant products. This is also supported by our Environmental Policy.

Some of our products are currently surface treated with treatments containing hexavalent Chromium (Cr(VI)) or Cadmium which are substances included in RoHS.

Those surface treatments are:

- Zinc with yellow, green or black chromating (Cr(VI))
- Zinc iron with yellow or black chromating (Cr(VI))
- Dacromet (Cr(VI))
- Finition Bichromatée (Cr(VI))
- Cadmium coating (Cadmium)

Lead (CAS No: 7439-92-1 was added to the candidate list of June 2018. Lead can be found as a component in materials intended for machining operations. Products supplied by Pajo Bolte made from free cutting steels, bronze, brass and aluminium may include lead in a concentration greater than 0.1% (w/w).

Products containing lead as an alloying element of steel, aluminium and copper are not allowed to be included in jewellery, according to restriction 63 in Annex XVII in REACH. According to the same restriction lead is not allowed in consumer articles that can be placed in the mouth by children.

Nickel plated material is not allowed to be included in products intended to come into direct and prolonged contact with the skin (e.g. earrings, watch straps or zippers) according to restriction 27 in Annex XVII in REACH.
