

Declaration of Compliance

Identification of Supplier:

Company name	Ahlsell Danmark A/S
Address	Jydekrogen 2A, DK – 2625 Vallensbæk Denmark
E-mail	produktsikkerhed@ahlsell.dk
Website	www.ahlsell.dk
Is registered at The Danish Veterinary and Food Administration: http://www.findsmiley.dk/da-DK/Searching/DetailsView.htm?virk=10957106	

Conformity:

Ahlsell DK hereby declare that the products complies with the European regulations:	
(EC) No 1935/2004:	Materials and articles intended to come into contact with food.
(EU) No 10/2011:	Plastic materials and articles intended to come into contact with food.
(EC) No 2023/2006:	Good manufacturing practice for materials and articles intended to come into contact with food.
(DK) 681/2020:	Regulation 681/2020 for materials and articles intended to come into contact with food.

Products covered by this DoC:

Danish:	Hybrid pakninger indeholdende PTFE og gummi
English:	Hybrid sealing parts containing PTFE and rubber
Please refer to the supplier DoC (next page) for area of application and technical information.

Declaration of Compliance

Food Contact Material (FCM) sealing parts in PTFE

We certify that all PTFE sealing parts included in our Dairy fittings are compliant with the relevant regulations:

- Regulation (EC) No 1935/2004 – Materials and Articles intended to come into contact with food
- Regulation (EC) No 2023/2006 – Good Manufacturing Practice
- Plastic Materials Regulation (EU) 10/2011
 - An independent institute has tested the overall migration, specific migrations of heavy metals, primary aromatic amine, and individual substances with specific migrations limits on representative samples. The testing conditions (time/temperature) simulated the use in all kinds of foodstuff, as required by the regulation EU10/2011. The test results complied with the legal limits set out in the directive. This declaration is based on the test results from independent labs and/or declarations from the material supplier.

The following specific substance used to manufacture PTFE has below specific migration limit defined in Annex I of EU regulation No. 10/2011:

CAS No.	Substance name	SML	Result
116-14-3	Tetrafluoroethylene	<0,05 mg/kg	<0,05 mg/kg

- FDA CFR21 / §177.1550 - Perfluorocarbon resins
 - The tests for overall extraction and specific migration mentioned in section 3 (1) and 3 (i) (ii) have been passed.
- Bekendtgørelse Nr. 681 af 25/05/2020 - Danish regulation that concerns food contact materials
- Regulation (EU) 2024/3190 – Use of bisphenol A (BPA) and other bisphenols

Before using the PTFE sealing parts for food contact, make sure to clean them thoroughly.

It remains the customer's own responsibility to check if the PTFE sealing parts are suitable for your specific application, considering the contact time, contact temperature, and type of food.

Declaration of Compliance

Food Contact Material (FCM) sealing parts in rubber

We certify that all rubber sealing parts (FPM, FKM, VMQ (SIL), EPDM, HNBR, NBR) included in our Dairy fittings are compliant with the relevant regulations:

- Regulation (EC) No 1935/2004 – Materials and Articles intended to come into contact with food
 - Until there are specific measures outlined for rubber materials in the EU legislation, the FDA CFR21 / §177.2600 standard is followed to comply with article 3 in EU1935/2004
- Regulation (EC) No 2023/2006 – Good Manufacturing Practice
- FDA CFR21 / §177.2600 - Rubber parts intended for repeated use
- Bekendtgørelse Nr. 681 af 25/05/2020 - Danish regulation that concerns food contact materials
- Regulation (EU) 2024/3190 – Use of bisphenol A (BPA) and other bisphenols

It is important to note that as per FDA CFR21 / §177.2600(g), rubber articles intended for contact with food must be thoroughly cleaned prior to food contact.

It remains the customer's own responsibility to check if the rubber sealing parts are suitable for your specific application, considering the contact time, contact temperature, and type of food.
