Single taps and combination taps

STATEMENT BY KIWA

With this product certificate, issued in accordance with the Kiwa Regulations for Certification, Kiwa declares that legitimate confidence exists that the products supplied by

KWC Group AG

as specified in this product certificate and marked with the Kiwa®-mark in the manner as indicated in this product certificate may, on delivery, be relied upon to comply with Kiwa evaluation guideline

BRL-K652: "Sanitary tapware; single taps and mixer taps", dated 26.08.2025

which covers the requirements of

EN 200: 2024: "Sanitary tapware – Single taps and combination taps for water supply systems of type 1 and type 2"

Wim van Loon
Managing Director Nederland

Publication of this certificate is allowed.
Advice: consult www.kiwa.com in order to ensure that this certificate is still valid.

K.12.41.11	kitchen mixer
K.12.41.21	kitchen mixer, pull-out spray
K.10.41.23	kitchen mixer

Single taps and combination taps

REMARK

The above listed products were not yet assessed for compliance with all Hygienic Aspects as stated in the Dutch Drinking Water Decree and as outlined in the “Regeling materialen en chemicaliën drink- en warm tapwatervoorziening” (“Regulation on materials and chemicals in drinking water and warm tap water supply”), implemented on 1 July 2017, as specified in clause 4.2 of the Kiwa Evaluation guideline BRL-K652.

APPLICATION AND USE

The single tap and mixer taps are designed for application within following limits of use:

- a working pressure from 50 kPa up to 1000 kPa;
- a water temperature of maximum 70°C.

The recommended limits for correct operation are:

- working pressure of 100 kPa up to 500 kPa;
- water temperature of maximum 65°C.

MARKING

The Kiwa®-mark products are marked with the wordmark “KIWA” and KK in a rectangle.

Place of the mark:

- Kiwa on the body;
- KK in a rectangle on the head part.

Compulsory specifications:

- name or mark of the manufacturer KWC: on the body;
- indication of the acoustic group, if classified: on the body;
- indication of the flow rate class, if classified: on the body.

Method of marking:

- non-erasable;
- visible after assembly

RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- KWC Group AG
- and, if necessary,
- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
