

PRV-2200

Item Number 4687510

The pressure- and tightness testing as well as washing and blow out of refrigeration cycles are the main applications for this robust PRV. The unit is perfectly designed for the fast and safe pressure regulation. Custom-built for Nitrogen (N₂) the PRV is available in 2 versions.

- For nitrogen bottles norm DIN 477 (W 24,32 x 1 1/4")
- Pressure gauge with marking pointer
- Primary pressure reducer secured at 55 bar
- Secondary pressure reducer 5-50 bar
- Including transition piece QC-S410A

Accessories

4683001	PRV-2200-G3	Adapter G3 to nitrogen bottle according standard NF E 29-650
4688067	PRV-2000/2200-02	Connection adapter 1/4" SAE for pressure reducing valve PRV-2000 and PRV-2200

Spare Parts

4678776	PRV-MANO	Connection piece for Nitrogen test unit with manifold
