

A181 spherical ball, for the food and pharmaceutical sector

A181EM-04-05

A181 spherical ball, for the food and pharmaceutical sector

- Material: iglidur A181
- Dimensional series E and K based on DIN ISO 12240
- High wear resistance at room temperature
- High media resistance
- FDA and EU 10/2011 compliant
- Optically detectable
- Suitable for applications in the food and pharmaceutical industries

B	5 mm
Ø dk	8.3 mm
Part number	A181EM-04-05

Product description

Introducing the A181 spherical ball from igubal, designed specifically for the food and pharmaceutical sectors. Made from iglidur A181 material, this food-grade ball offers high wear and media resistance, ensuring durability and reliability. Compliant with FDA and EU regulations, it is optically detectable, making it a safe choice for critical applications. With its precise dimensions based on DIN ISO 12240, the A181 spherical ball is the perfect solution for your industry needs.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

General properties

Dimensional series	E, according to DIN ISO 12240
Spherical ball material	igidur® A181

Thermal properties

Max. long-term application temperature	90 °C
Lower application temperature	-50 °C

Dimensions

Shaft diameter	4 mm
Ø dk	8.3 mm
B	5 mm

Certificates and standards
