drylin® R aluminium shaft | solid/hollow shaft |
AWMP

- Lightweight
- Optimal in combination with iglidur® J/J200 liners
- Low wear of plain bearings
- Corrosion-resistant
- Aluminium EN AW 6060/6061 (ALU)
- Straightness: EN 754-3

Product description

Discover the drylin® R aluminium shaft, a versatile solution for your needs. This lightweight shaft is designed for optimal performance when paired with iglidur® J/J200 liners, ensuring low wear on plain bearings. Made from corrosion-resistant aluminium (EN AW 6060/6061), it guarantees durability and reliability. With its straightness conforming to EN 754-3 standards, the drylin® R shaft is perfect for various applications, providing you with a dependable choice for your projects.

Manufacturing and installation tolerances

d tolerance	h8
-------------	----

Dimensions

Design	solid shaft
Outer diameter d	10 mm
max. length	3000 mm
Min. length	100 mm

General properties

Material	Aluminium EN AW 6061/6060
Surface roughness Ra	< 0,6 µm
Hardness	75 HB

Certificates and standards
