

drylin® flanged lead screw nuts for linear modules
SHT-2018 right-hand thread

DST-SHT-2018-DS18X40-J-RH

drylin® flanged lead screw nuts for linear
modules SHT-2018 right-hand thread

- Material: iglide® J
- Thread type: High helix thread dryspin®
- Design: Special part

Product description

Introducing the drylin flanged lead screw nuts, designed specifically for linear modules with a right-hand thread. Crafted from durable iglide J material, these special parts feature a high helix thread dryspin design for enhanced performance. Perfect for your linear motion needs, they ensure smooth operation and reliability. Upgrade your system with this essential component that combines quality and functionality seamlessly.
