

drylin® lead screw nuts for linear modules
SLW-0630 left-hand thread

DST-SLW-063001-DS8X10-LH

Product description

Discover the drylin lead screw nuts designed specifically for linear modules SLW-0630 with a left-hand thread. Engineered for smooth operation and durability, these nuts enhance the performance of your linear systems. Ideal for a variety of applications, they ensure reliable movement and precision. Upgrade your setup with this essential component from the trusted drylin brand, known for its innovative solutions in motion technology.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

General properties

Weight	3.534 g
--------	---------

Dimensions

Thread size	DS8X10
