

drylin® lead screw nuts for linear modules
SLW-25120 left-hand thread

DST-SLW-25120-DS18X24-J-LH

drylin® lead screw nuts for linear modules
SLW-25120 left-hand thread

- Material: iglidur® J
- Design: Special design
- Cylindrical threaded nut

Product description

Discover the drylin lead screw nuts designed specifically for linear modules SLW-25120 with a left-hand thread. Engineered for smooth operation and durability, these nuts enhance the performance of your linear systems. Ideal for various applications, they ensure reliable movement and precision. Upgrade your setup with these high-quality components to achieve optimal functionality in your projects.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
