

drylin lead screw nuts for linear modules
SLW-25120 right-hand thread
DST-SLW-25120-DS18X24-J-RH

drylin lead screw nuts for linear modules
SLW-25120 right-hand thread

- Material: iglidur® J
- Design: Special design
- Cylindrical threaded nut

Product description

Discover the drylin lead screw nuts designed specifically for SLW-25120 linear modules. This right-hand thread component ensures smooth and reliable operation, making it an essential addition for your linear motion applications. Crafted for durability and efficiency, these lead screw nuts enhance the performance of your systems, providing the reliability you need for seamless movement. Upgrade your setup with this high-quality solution from the trusted drylin family.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
