

drylin® R stainless steel shaft | EEWM | AISI 420C

EEWM-08

drylin® R stainless steel shaft | EEWM | AISI 420C

- High corrosion resistance
- High chemical resistance
- Ideal solution for wet applications
- Stainless steel EEWM AISI 420C (X46)

Product description

Introducing the drylin R stainless steel shaft, crafted from AISI 420C for exceptional durability. This shaft offers high corrosion and chemical resistance, making it the ideal solution for wet applications. Designed to withstand challenging environments, it ensures reliable performance and longevity. Upgrade your projects with the robust and versatile drylin R stainless steel shaft today.

Manufacturing and installation tolerances

d tolerance	h6
-------------	----

General properties

Material	stainless steel 1.4034
Effective hardness depth	0.9 mm
Surface roughness Ra	0,15 - 0,3 µm

Dimensions

Design	solid shaft
Outer diameter d	8 mm
max. length	4000 mm

Certificates and standards
