

drylin® R stainless steel shaft | EWMS | AISI 316Ti

EWMS-06

drylin® R stainless steel shaft | EWMS | AISI 316Ti

- High corrosion resistance
- High chemical resistance
- Ideal solution for wet applications
- Stainless steel EWMS AISI 316Ti (316 stainless steel)

Product description

Introducing the drylin R stainless steel shaft, EWMS, AISI 316Ti, designed for optimal performance in wet environments. Crafted from high-quality AISI 316Ti stainless steel, it offers exceptional corrosion and chemical resistance, ensuring durability and reliability. This shaft is the ideal solution for applications requiring resilience in harsh conditions, making it a perfect choice for your needs. Trust in the quality of drylin for lasting performance.

Manufacturing and installation tolerances

d tolerance	h9
-------------	----

Dimensions

Design	solid shaft
Outer diameter d	6 mm
max. length	3000 mm

General properties

Effective hardness depth	0.8 mm
Surface roughness Ra	0,3 - 0,6 µm
