

Clevis joint with pin and circlip, GARMK, igubal®

GARMK-10

Clevis joint with pin and circlip, GARMK, igubal®

- Male thread on the right
- igumid® G material
- Lightweight
- High rigidity
- Absolute corrosion resistance
- High tensile force
- Can be combined with rod ends of the dimensional series E
- Vibration-dampening
- Noise-dampening

Product description

Introducing the GARMK Clevis Joint with Pin and Circlip from igubal®. This lightweight and highly rigid joint features a male thread on the right, ensuring a secure connection. Crafted from igumid® G material, it offers absolute corrosion resistance and high tensile strength. Ideal for combining with rod ends of dimensional series E, it also provides vibration and noise dampening, making it a reliable choice for various applications. Upgrade your projects with this durable and efficient solution.

Dimensions

thread d2	M10
Ø d1	10 mm
g	19 mm
l1	30.3 mm
l2	69 mm
h1	57 mm
b1 overall length	10 mm
a1	20 mm
a2	20 mm
b	1.3 mm

General properties

Thread direction

Right-hand thread

Dimensional series

E, according to DIN 71752

Material

igumid G

Weight

15.14 g

Certificates and standards
