

Spring-loaded fixing clip, GEFM, igubal®

GEFM-05

Spring-loaded fixing clip, GEFM, igubal®

- One-piece design
- Easy installation
- Easy disassembly
- Material igumid G
- Can be used in combination with dimensional series E clevis joints
- High stability

Product description

Introducing the igubal® spring-loaded fixing clip from the GEFM series. Designed for durability, this one-piece clip is perfect for challenging environments, resisting weak acids, alkalis, and dirt. Made from impact-resistant igumid® G, it performs well in temperatures from -30°C to +80°C. With high tensile strength and noise-dampening properties, it's ideal for applications in the food industry, automotive, and more. Enjoy easy installation and disassembly, ensuring high stability for your projects.
