igubal®

GEFM-06-DT

Spring-loaded fixing clip, detectable, GEFM-DT,
igubal®

- Detectable
- Especially cost-effective
- Material: RN246
- Insensitive to dust and dirt
- No maintenance or lubrication necessary
- Vibration-dampening
- Lightweight

Product description

Introducing the igubal® spring-loaded fixing clip, GEFM-DT, designed for reliability and safety. Made from detectable RN246 material, this lightweight clip ensures quick identification in case of misuse or system failures. Its dust and dirt resistance means no maintenance or lubrication is required, while its vibration-dampening properties enhance performance. Ideal for various applications, including the food and automotive industries, this cost-effective solution is perfect for any environment where safety is paramount.
