

Angled joint

GPLM-05

Angled joint

- Housing material: igumid G
- Connection for rotating and swivelling movements
- Low weight
- ery easy to mount
- Insensitive to dirt and dust

Product description

Introducing the igubal GPRM Angled Joint with W300 Ball Cap, a flexible solution for diverse applications. Crafted from igumid G, this robust housing is designed to withstand extreme temperatures and is resistant to impact. Its lightweight design ensures easy mounting, while the integrated iglidur W300 ball cap allows for smooth rotating and swivelling movements. Plus, it's insensitive to dirt and dust, making it a reliable choice for any setting. Customize your joint with a matching ball stud for complete versatility.
