

iglidur® IC-01, coating powder

IC-01-20KG

iglidur® IC-01, coating powder

- High wear resistance and durability
- Good mechanical specifications
- 480 h Salt spray test according to DIN EN ISO 9227

Product description

Introducing the iglidur IC-01 coating powder, a high-performance solution designed to enhance metallic surfaces. This tribologically optimized polymer provides exceptional friction and wear resistance, ensuring long-lasting protection against wear and tear. With proven corrosion protection after 480 hours of salt spray testing, it's ideal for applications in the furniture industry, hinges for windows and doors, and mechanical engineering. Elevate your projects with the durability and reliability of iglidur IC-01 coating powder.
