

iglidur® IC-02, coating powder

IC-02-20KG

iglidur® IC-02, coating powder

- High wear resistance and durability
- Good mechanical specifications
- 480-hour salt spray test according to DIN EN ISO 9227

Product description

Introducing iglidur IC-02 coating powder, a high-performance solution designed to enhance metallic surfaces. This tribologically optimized polymer provides exceptional wear resistance and durability, making it ideal for applications in the furniture industry, window and door hinges, and machine tools. With impressive corrosion protection proven by a 480-hour salt spray test, iglidur IC-02 ensures your surfaces remain protected and functional under heavy use. Upgrade your surfaces with this innovative coating powder today.
