Product description

Introducing the drylin flange lead screw nut, part of the igus family, designed for high-performance applications. Made from iglidur J350, this durable nut withstands temperatures up to +150°C, making it ideal for medium to high ambient conditions. Its trapezoidal thread ensures smooth operation, while the spanner flat design allows for easy installation. Enjoy a lubrication-free, maintenance-free experience with excellent wear resistance, perfect for demanding environments.
