

drylin® disc, lock washer
JDRM-4209TR10X2

Product description

Introducing the drylin disc lock washer, a reliable component designed for secure fastening. This product is part of the drylin family, known for its durability and efficiency. Ideal for various applications, the lock washer ensures a tight fit, preventing loosening over time. Trust in the quality and performance of this essential item to enhance your projects.

Physical properties

Max. axial static pressure load	508 N
---------------------------------	-------

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

General properties

Weight	94.5 g
--------	--------

Dimensions

Thread size	TR10X2
Ø d1	10 mm
Ø d3	42 mm
Ø d4	34 mm
Ø d5	5 mm
b1	9 mm
