

drylin® spherical high helix lead screw nut with
flange housing, EFOM

JFRKM-EFOM-DS8X15

drylin® spherical high helix lead screw nut with
flange housing, EFOM

- Material: iglide® J
- Thread type: High helix threads

Product description

Introducing the drylin spherical high helix lead screw nut with flange housing, EFOM. Crafted from iglide J material, this innovative product features high helix threads for enhanced performance. Its durable design ensures reliability and longevity, making it an excellent choice for various applications. Experience smooth operation and efficiency with this essential component in your projects. Upgrade your machinery with the drylin EFOM today!

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

General properties

Weight	3.4 g
--------	-------

Dimensions

Thread size	DS8X15
Ø d1	8 mm
b1	12 mm
