

drylin® spherical high helix lead screw nut with
pillow block bearing housing, ESTM
JFRKM-ESTM-DS8X15

drylin® spherical high helix lead screw nut with
pillow block bearing housing, ESTM

- Material: iglide® J
- Thread type: High helix threads

Product description

Introducing the drylin spherical high helix lead screw nut with pillow block bearing housing, ESTM. Crafted from iglide J material, this innovative product features high helix threads for smooth motion and enhanced performance. Designed for durability and reliability, it's perfect for various applications where precision is key. Upgrade your setup with this efficient and robust solution from the trusted drylin family.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

General properties

Weight	7.902 g
--------	---------

Dimensions

Thread size	DS8X15
b1	10 mm
