

Signal connector SUB-D, angular connector, incl. contacts

MAT01716524

Product description

Introducing the SUB-D signal plug-in connector, an angular connector designed for reliability. Crafted from durable nickel-plated zinc die casting, it features a robust glass-fibre-reinforced polyester insulation insert. The contacts are made from flash gold-plated copper alloy, ensuring excellent conductivity. With a maximum continuous nominal current of 5A and a wide temperature range from -35 °C to +100 °C, this connector is perfect for various applications. Experience quality and performance with the SUB-D series.

Thermal properties

Temperature range	-35°C up to +100°C
-------------------	--------------------

Electricity attributes

Max. continuous nominal current	5A
Test voltage	(L-L) 1,200V
Transitional resistance	10 ¹⁶ Ω/cm
Insertion cycles	2

General properties

Design	Angular connector
Solder insert	Pin, standard 25 pin
Material	Zinc die casting nickel plated
Insulation body	Fibreglass reinforced polyester
Contacts	Copper alloy, flash gold-plated
