

Yamaichi connector, incl. contacts

MAT01717218

Product description

Discover the Yamaichi plug-in connectors, designed for durability and reliability. With a maximum continuous nominal current of 2.1A and capable of enduring up to 1,000 insertion cycles, these connectors excel in performance. They operate effectively in a wide temperature range from -20 °C to +120 °C, ensuring versatility in various environments. Crafted from robust zinc die-casting material, Yamaichi connectors are the perfect choice for your connectivity needs.

Thermal properties

Temperature range	-20 °C to +120 °C
-------------------	-------------------

Electricity attributes

Max. continuous nominal current	2.1A
Insertion cycles	1000

General properties

Number of poles	4 (Ethernet) + 2 (Power)
Manufacturer Part No.	Y-CONKIT-41
Housing material	zinc die-casting
