

drylin® slot nuts for mounting

NOR-20602

drylin® slot nuts for mounting

- Variable positions
- Ideal for drylin® limit and reference switches
- Suitable for T-slots of the drylin® WSX high-profile rail
- Secure retention
- Can be retrofitted

Product description

drylin® slot nuts offer flexible mounting options for sensors and switches on the robust drylin® W high-profile rail. Designed for secure retention, they fit T-slots of the drylin® WSX rail and can be retrofitted easily. Ideal with drylin® limit and reference switches, these slot nuts support various linear modules and carriages, ensuring reliable and versatile fastening solutions.
