

drylin® NT end cap for the NT-35/60 series

NTKA-35

drylin® NT end cap for the NT-35/60 series

- Front visual cover of telescopic rails
- Rounded edge protection geometry
- 100 % recycled. Made from recycled polymer iglidur ECO P

Product description

Introducing the drylin NT end cap, designed specifically for the NT-35 and NT-60 series telescopic rails. These end caps feature a sleek flat design to elegantly cover the pull-out rail, while the high design conceals the entire front for a polished look. With rounded edge protection, they ensure safety and durability. Made from 100% recycled iglidur ECO P polymer, these end caps are an eco-friendly choice that combines functionality with sustainability. Enhance your telescopic slides with style and protection today!
