

drylin® N prism slide carriage - preloaded and PFAS safe with threaded holes

NWV-42-27-35-P05

drylin® N prism slide carriage - preloaded and PFAS safe with threaded holes

- Controlled adjustment thanks to individual preload
- Compatible with many systems: short and long slides with through-hole or threaded hole
- Medium displacement forces and guaranteed holding forces tested in the igus® laboratory.
- Threaded inserts and matching prism rails are REACH-3 and ROHS compliant
- We currently classify the tested iglidur® materials as PFAS-free

Product description

Introducing the drylin N prism slide carriage, a versatile solution for your sliding needs. This preloaded carriage allows for controlled adjustments, ensuring precision in movement. It's compatible with both short and long slides, featuring threaded holes for easy installation. Designed with safety in mind, the materials used are PFAS-free and compliant with REACH-3 and ROHS standards. Trust in the medium displacement forces and holding capabilities, all tested in the igus laboratory for reliability.
