Product description

Introducing the drylin R linear slide bearing OJ200UI-01, designed for precision and durability. This bearing features an open anodised aluminium adapter, perfect for supported shafts. The liner is made from iglidur J200, specifically crafted for optimal performance with aluminium hard anodized shafts. Experience smooth motion and reliable support with this exceptional component from the trusted drylin brand. Ideal for various applications where quality matters.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

Manufacturing and installation tolerances

d1 tolerance	+0.013 +0.071mm, F10
d2 tolerance	h7
B tolerance	h10
Housing bore (min.)	3 in
Housing bore (max.)	3.001 in
dn tolerance	h10

General properties

Sliding element material	iglidur_j200
