

drylin® R - open pillow block OJUI-11 for standard bearings, imperial

OJUI-11-08

drylin® R - open pillow block OJUI-11 for standard bearings, imperial

- Standard Bearing, Open Pillow Block
- Liner made of iglidur® J the versatile endurance runner, highly resistant to wear on (nearly) all shafts with very low coefficients of friction. The liner is contained according to standard tolerances
- Dimensionally interchangeable with ball bearings

Product description

Introducing the drylin R open pillow block OJUI-11, designed for standard bearings. This durable component features a liner made of iglidur J, known for its exceptional wear resistance and low friction on various shafts. Perfectly dimensionally interchangeable with ball bearings, this pillow block ensures easy integration into your projects. Experience reliable performance and versatility with the drylin R series, making it an ideal choice for your bearing needs.

General properties

Sliding element material	igidur_j
