OJUI-13-08

drylin® R - open pillow block OJUI-13 for self-aligning bearings, imperial

- Self-Aligning Bearing, Open Pillow Block
- Liner made of iglidur® J the versatile endurance runner, highly resistant to wear on (nearly) all shafts with very low coefficients of friction. The liner is contained according to standard tolerances
- Dimensionally interchangeable with ball bearings

Product description

Introducing the drylin R Open Pillow Block OJUI-13, designed for self-aligning bearings. This innovative product features a durable iglidur J liner, known for its exceptional wear resistance and low friction on various shafts. Its design is dimensionally interchangeable with standard ball bearings, ensuring compatibility and ease of use. Perfect for applications requiring reliable performance, the OJUI-13 combines versatility with durability, making it an ideal choice for your needs.

General properties

Sliding element material	iglidur_j
Housing material	aluminium

Dimensions
