OJUI-23-10

drylin® R linear slide bearing OJUI-23 imperial

- Hard anodized aluminum adapter
- Dimensionally interchangeable with linear ball bearings
- Equipped with liner made of iglidur® J Temperature range -40°F to +194°F JUIO-20 (low clearance)
- Suitable shafting for iglidur® J: DryLin® AWI aluminum, case-hardened, 300 series stainless

Product description

Introducing the drylin R linear slide bearing OJUI-23 imperial, a reliable choice for your motion applications. Crafted with a hard anodized aluminum adapter, this bearing is dimensionally interchangeable with standard linear ball bearings. It features a durable iglidur J liner, capable of withstanding temperatures from -40°F to +194°F. Perfectly suited for use with DryLin AWI aluminum and case-hardened stainless steel shafts, this bearing combines versatility and performance in one efficient package.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

Manufacturing and installation tolerances

d1 tolerance	+0.000 +0.040mm
d2 tolerance	h8
B tolerance	h10
s tolerance	H10
dn tolerance	h10
ds tolerance	h10

General properties

Sliding element material	iglidur_j
