Product description

Introducing the drylin R linear slide bearing OJUI-01, imperial. This high-quality bearing features an open anodised aluminium adapter designed for supported shafts. Crafted with iglidur X material, it excels in high-temperature environments, ensuring durability and reliability. Upgrade your projects with this efficient and robust solution tailored for optimal performance.

Requirements

Mould-resistant according to DIN EN ISO 846 Procedure A	No
---	----

Manufacturing and installation tolerances

d1 tolerance	+0.006 +0.046mm, F10
d2 tolerance	h7
B tolerance	h10
dn tolerance	h10

General properties

Sliding element material	igidur_x
