

iglidur® PRT spacer ring heavy duty, steel

PRT-01-20-DR-HD

iglidur® PRT spacer ring heavy duty, steel

- Steel version to avoid distortion during installation
- Inner diameters from 50mm to 300mm
- iglidur® PRT modular system: can be combined with all dimensions
- High corrosion resistance

h1	20 mm
S2	4,5
D	80 mm
D1	70 mm
T2	6 x 60 °

Product description

Introducing the iglidur® PRT heavy-duty spacer ring, crafted from durable steel for secure fastening of iglidur® PRT slewing ring bearings on uneven surfaces. This innovative design prevents distortion during installation, ensuring reliability and safety. With inner diameters ranging from 50mm to 300mm, it seamlessly integrates into the iglidur® PRT modular system, compatible with all dimensions. Plus, its high corrosion resistance guarantees longevity in various environments.

General properties

Weight	299.3 g
Colour	black
Shipping weight (kg or kg/m)	0.2993
Coating	Nitrocaburised salt bath

Dimensions

D1	70 mm
D3	62 mm
h1	20 mm
