Product description

Introducing the iglidur PRT-04 slewing ring spacer ring, crafted from durable hard anodised aluminium. This essential accessory is designed for easy and fast assembly, allowing you to securely mount the PRT onto flat surfaces without the need for undercuts or cut-outs. Part of the versatile iglidur PRT modular system, it seamlessly fits all PRT-04 models. Enhance your installation efficiency with this practical solution, ensuring a reliable and lubrication-free operation. Perfect for your next project!
