

## iglidur® slewing ring, PRT-05, with angle limiter

### PRT-05-15-PC-TS-360

### iglidur® slewing ring, PRT-05, with angle limiter

- Stops can be adjusted quickly and individually: prevents rotation of the PRT slewing ring bearing
- Inexpensive all-plastic slewing ring (up to 4 times cheaper than the PRT-04-50-TS)
- Optimum material combination, coefficient of friction  $\mu = 0.18$ , axial tensile force 200N, axial compressive force 1,750N
- Made from at least 97% regranulate

### Product description

Introducing the iglidur® slewing ring PRT-05 with an integrated angle limiter. This innovative all-plastic design is lightweight and cost-effective, making it an ideal choice for various applications. With customizable stops, you can easily adjust the rotational movement up to 360°. Crafted from at least 97% regranulate, this slewing ring combines sustainability with durability, ensuring a long service life. Experience performance and efficiency with the PRT-05, the smart solution for your rotation needs.
