Product description

Introducing the drylin R pillow block RE7UI-33 bearings, designed for optimal performance with low clearance and self-aligning capabilities. Crafted with a durable iglidur E7 liner, these bearings excel with steel and stainless steel shafts, ensuring longevity and reliability. They are dimensionally interchangeable with ball bearings, making them a versatile choice for your projects. Perfect for US applications, elevate your machinery with these high-quality pillow block bearings.

General properties

Sliding element material	igidur_e7
Housing material	anodised aluminium
