

drylin® trapezoidal lead screw nut with housing
block

RGAS-JTRM-TR20X4

Product description

Discover the drylin trapezoidal lead screw nut with housing block, designed for smooth and reliable motion. This product offers a robust solution for various applications, ensuring durability and efficiency. Its innovative design enhances performance, making it an ideal choice for your projects. Experience the quality and precision that the drylin family is known for, and elevate your mechanical systems with this essential component.

General properties

Weight	134.686 g
--------	-----------

Dimensions

Thread size	TR20X4
E1	40 mm
A	70 mm
