standard bearings, imperial +++ US ONLY +++++
RJUI-11-16TW

**drylin® R - double pillow block RJUI-11TW for
standard bearings, imperial +++ US ONLY +++++**

- Straight Bearing, Closed Twin Pillow Block
- Liner made of iglidur® J the versatile endurance runner, highly resistant to wear on (nearly) all shafts with very low coefficients of friction. The liner is contained according to standard tolerances
- Dimensionally interchangeable with ball bearings

Product description

Introducing the drylin R double pillow block RJUI-11TW, designed for standard bearings. This closed twin pillow block features a liner made of iglidur J, known for its exceptional wear resistance and low friction. It is dimensionally interchangeable with ball bearings, making it a versatile choice for various applications. Ideal for those seeking reliability and durability, this product is perfect for US customers looking to enhance their machinery efficiency.

General properties

Sliding element material	igidur_j
Housing material	anodised aluminium

Dimensions

B	3.25 in
M	2.25 in
E	2.875 in
A	1.187 in
