

drylin® R - pillow block RJUI-13 for self-aligning bearings, imperial +++ US ONLY +++++
RJZI-13-04

drylin® R - pillow block RJUI-13 for self-aligning bearings, imperial +++ US ONLY +++++

- Self-Aligning Bearing, Closed Pillow Block
- Liner made of iglidur® J the versatile endurance runner, highly resistant to wear on (nearly) all shafts with very low coefficients of friction. The liner is contained according to standard tolerances
- Dimensionally interchangeable with ball bearings

Product description

Introducing the drylin R pillow block RJUI-13, designed for self-aligning bearings. This closed pillow block features a durable iglidur J liner, known for its exceptional wear resistance and low friction performance, making it perfect for nearly all shafts. Its design is dimensionally interchangeable with standard ball bearings, ensuring compatibility and ease of use. Ideal for various applications, this product is a reliable choice for your bearing needs.

General properties

Sliding element material	igidur_j
Housing material	anodised aluminium

Dimensions

B	1.625 in
M	0.75 in
E	1.312 in
A	0.437 in
