Product description

Introducing the drylin R pillow block RJUI-33, designed for self-aligning bearings. This closed pillow block features a low clearance design, making it ideal for tight spaces. The liner is crafted from iglidur J, known for its exceptional wear resistance and low friction, ensuring longevity and reliability. Dimensionally interchangeable with ball bearings, this versatile product is perfect for various applications. Experience durability and performance with the drylin R pillow block RJUI-33.

General properties

Sliding element material	igidur_j
Housing material	anodised aluminium
