

drygear® Apiro rack and pinion gearbox
RL-A14.0107.3

drygear® Apiro rack and pinion gearbox

- Flexible strokes starting at 60mm
- Max. axial load of 50N
- Typically driven with an Apiro® worm gear
- Manual or motorised drive possible
- Easy synchronisation with Apiro® modular gearbox system
- INI kit available for all options

L1	80 mm
Weight	247.0574 g
D1	25 mm
B1	50 mm
H1	87 mm
L3	150 mm
Ø T	20 mm
Stroke	60 mm

Product description

Introducing the drygear® Apiro rack and pinion gearbox, designed for versatile pusher tasks and format adjustments. This modular system allows easy synchronization and features a lightweight design for efficient operation. With a maximum axial load of 50N and flexible strokes starting at 60mm, it suits various applications, including the beverage and packaging industries. Whether manual or motorized, the Apiro gearbox offers cost-effective and customizable solutions for your automation needs.

Mechanical properties

Backlash	0.5 °
